### *introducing craft apple*

The Craft range has grown to encompass several colors over the years. With the celebration of its 10th Anniversary, we are excited to introduce Apple, the latest color addition to the range. Inspired by hand-crafted, country wares, the simple forms and shapes produce a unique & individual appearance that provides a rich canvas for presenting food.

***craft inspires individuality & eclecticism***

From the beginning, Craft was conceived to be sympathetic with long-term trends including heritage, authenticity, hand craftsmanship, individuality and eclecticism. With the addition of Apple, the hue brings warmth and familiarity to the collection, but also a vibrant and energetic impression for the tabletop.

*promote a feeling of wholesome wellbeing*

Our ever-popular Craft Collection has expanded with the latest color addition: Apple. The growth and interest in plant-based and health-conscious menus are deserving of a bright & energetic hue like Apple. Promoting a feeling of wholesome wellbeing, this distinctly contemporary tone is great on its own or mix & match with the existing Craft colors to create an eye-catching presentation.
